

THE GLOBAL GEODETIC REFERENCE FRAME

#GGRF / @unggrf / unggrf.org

Welcome to the session Global to National Geodetic Frameworks: Core to Building a Better World at #UNWGIC

The session will highlight why geodesy is an important building block for sustainable development, the administration and management of land and water interests, the digital economy and the future of smart societies; and explore the capacity development and education challenges of geodesy.

Wednesday, 21 November 2018: 11:00 am – 12:30
**Session / thematic area 4: Growing Global
Geospatial Capability and Capacity,**
